

COLLEGE Additional Services

Financial Aid Consulting. Costs can be one of the most important determinants of finding the right college. CMG can provide help with FAFSA, the CSS profile or college supplemental financial forms.

Advice for students with Learning Disabilities.

Some schools provide the minimum support services required by the government; others provide services that are much more comprehensive and proactive. College Match Guru can make sure that you're looking at schools with appropriate services. Once a student chooses a college, the Guru works with clients to make sure they're getting the services they need.

Transition Programs. Some students need more than just a college with basic LD support; they need help transitioning from high school and parental supervision to living and learning on their own. College Match Guru can help students find programs and services that can help develop important life skills they need in a college environment.

A young woman with long dark hair is sitting cross-legged on a light-colored stone ledge. She is wearing a red and white striped t-shirt under a blue denim jacket. She is looking directly at the camera with a slight smile and is holding an open silver laptop on her lap. In front of her on the ledge is a stack of several thick books. The background is a blurred outdoor setting with a warm, orange and yellow sunset or sunrise sky.

College Should Fit Like a Good Pair of Jeans

Less Stress, Less Time Better Choices

Finding a suitable college should be a time of exploration and self-discovery, not of stress and hours of fruitless fact finding and wrong turns!

Let College Match Guru help you navigate the intricacies of your college selection, so you can be confident you did all you possibly could to find the best college. We'll match you with a list of schools that fit with all your needs – academic, social, cultural, geographic and financial.

Meet the Guru

Jeff Sibner, the College Match Guru, has been an educator for more than 30 years and been involved in College admissions and financial aid for nearly 10 years. Jeff's professional affiliations include membership in the Pennsylvania Association for College Admissions Counseling (PACAC) and the Independent Educational Consultants Association (IECA). His formal training includes a certificate degree in Educational Consulting from the University of California, Irvine.

Our Most Popular Programs

College Match Guru offers information and insight you won't get from guides or web sites, geared to match almost everyone's needs and finances:

Early College Planning It's never too early to start planning! A basic understanding of what colleges are looking for can make the high school years more productive. Recent changes to FAFSA make it even more important that families start planning for the cost of college no later than the beginning of high school.

Comprehensive Program This program takes students through the entire college selection process. Everything is included, from determining majors and creating a list of colleges matched to their needs and preferences, to creating competitive essays and working through financial aid issues.

Transfer Program About 30% of college students transfer into a new college as they continue to find themselves and their plans and interests evolve. College Match Guru advises on where courses are likely to transfer, how to apply for transfer admission and what kind of financial aid that may be available.

10-Hour Senior Program Ideal for Seniors with limited needs, this program is geared to creating competitive applications including essays and personal statements.
