

Mercer Bucks Cardiology is dedicated to providing complete cardiovascular care to its patients in a community setting. Our focus is to provide compassionate care to our patients and their families, while utilizing the latest technology in diagnostic testing and treatment strategies.

Mercer Bucks Cardiology is here for you.

Our offices are open from 8am to 5pm. Routine calls can be made during regular office hours, but one of our physicians is always on call for after-hour emergencies.

We accept most **insurance**.

Our staff will be glad to help with questions about the insurance plans we accept. Please bring your insurance card so we can verify we have the most current information.

Before your **appointment**.

We'll give you forms to complete that will provide important medical history for your MBC physician. We will also ask for copies of your cardiac medical records to assist with diagnosis and treatment.

There's a Mercer Bucks Cardiology office near you.

For information, directions,
or to make an appointment,
call the office nearest you.

Is your **heart** in the right place?

Mercer Bucks  Cardiology

Mercer Bucks  Cardiology

Is your **heart** in the right place?

What's so different about Mercer Bucks Cardiology? Everything.

Mercer Bucks Cardiology combines the renowned expertise of cardiac specialists, researchers, clinicians and educators providing a level of care available only at Mercer Bucks Cardiology. It begins with respect and compassion. It continues with expert diagnosis and pioneering new treatments, *helping people to live longer, healthier lives.*

Top cardiologists who can practice anywhere, but choose to care for your community.

MBC physicians are some of the most talented cardiologists in the region. Every MBC physician is board certified in cardiovascular disease. To ensure proper continuity of care, we communicate directly with your primary care physician regarding your diagnosis, test results and treatment.

We're big believers in prevention.

Our cardiologists are as expert at preventing heart disease as we are at managing it, thanks to one of the most comprehensive heart wellness programs in the region.

You're this close to great cardiac care.

Top cardiac care, right here in Mercer and Bucks counties. It's just one reason more people are turning to MBC. For advanced, personalized cardiac care, make sure your heart is in the right place.

We treat a wide range of heart conditions:

MBC cardiologists, nurses and technologists are specially trained in preventing, diagnosing and treating conditions related to the heart, including:

- Blocked heart arteries (coronary artery disease)
- Congestive heart failure
- Heart palpitations, arrhythmias and atrial fibrillation
- High blood pressure
- High cholesterol (lipid abnormalities)
- Valve disease
- Vascular disease (PAD)
- Unexplained passing out (syncope)

With a wide range of cardiology services:

- Initial consultations
- Follow-up care
- Echocardiography
- Nuclear cardiology
- Electrocardiograms
- Exercise stress testing
- Event recorders
- Pacemaker and ICD evaluation
- Noninvasive vascular testing
- Holter monitors
- Advanced cardiac interventional procedures
- Advanced peripheral vascular interventions
- Advanced electrophysiology services
- Heart Failure and Hypertension Program
